Maps and Location Codes

UTS Map: <https://maps.uts.edu.au/overview.cfm>

UTS LOCATION CODE KEY

04.03.005

Building Number

Level

Room Number

= Building 4, Level 3, Room 005

Room identification illustrates the building, level and room number.

For example:
 Building 01, Level 02, Room 24 in would be **01.02.24** or
 Building 05C, Level 04, Room 13 in would be **05C.04.13**

The Great Hall

The Tower, Building 1 – 15 Broadway, Ultimo

The Great Hall is UTS' largest venue which has been designed to recreate a warm and dramatic cathedral-like space. The Hall is used as the main venue on campus for graduations and orientations. As the space is a flat floored venue it will work well with a range of different event types including conferences, exhibitions, round tables, dinners and cocktail functions. There is access to some breakout rooms in neighbouring buildings, which have a variety of different rooms types, such as classroom, theatre or collaborative.

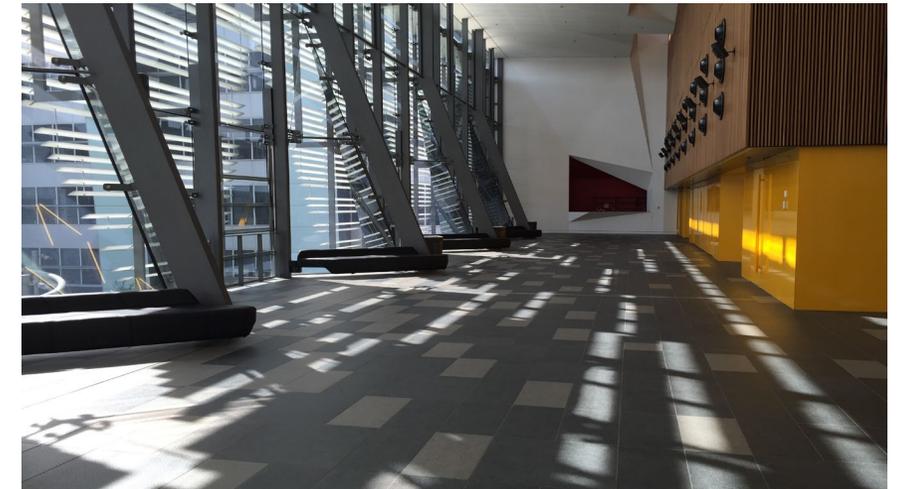

The Great Hall has an adjoining Balcony Room which compliments bookings in the Great Hall. This open room with floor to ceiling windows overlooking the Alumni Green is a great space for breakouts, catering, exhibition or trade stands.

The large foyer space outside the Great Hall and Balcony Room also allows an ample amount of space to set-up registrations, catering or stands.

Room Style	Capacity
Theatre – with stage	800
Banquet – with stage	160
Foyer Area – cocktail	200
Balcony Room – cocktail	200

UTS Building 2

UTS Central- 15 Broadway, Ultimo
Faculty of Law and UTS Library

Located next to the UTS Tower and opposite Central Park on Broadway, UTS Central is a striking, 17-storey, glass-encased building that has redefined the southern gateway to Sydney's CBD. UTS Central adds to the architectural diversity of the UTS campus and to the array of learning, teaching and research facilities on campus, with the Hive Superlab, three large high-tech collaborative classrooms and research spaces for the Faculty of Engineering and IT.

Venue	Capacity	Room Style

UTS Building 6

Peter Johnson Building - 702 Harris Street, Ultimo
Faculty of Design, Architecture and Building

Building 6 is located just next door to the ABC and is a short stroll from George St, the building is filled with Design, Fashion, Architecture and Building students. This building is home to the University's largest tiered theatre, The Guthrie Theatre, seating 330 people. Guthrie Theatre has nearby breakout rooms and foyer space that allows for registration and catering.

UTS Building 7

Vicki Sara Building – 67 Thomas Street, Broadway
Faculty of Science

With its distinct curves that lean and bend, allowing maximum sunlight to reach the Alumni Green, and its unique 700 colourful box-style windows, 'CB07' is a draw card for both science and architecture lovers.

UTS Building 7 has been awarded a 6 Star Green Star Design rating certified by the Green Building Council of Australia. Building 7 includes a green roof, storm water collection and treatment for garden irrigation, solar hot water and many more [sustainability features](#).

The Green Theatre seats 185 people in a tiered lecture style, the theatre is completely green – floor, walls and ceiling with quirky 'beaker' lighting. The colour green is said to set the mood for a relaxed learning environment.

UTS Building 8

Dr Chau Chak Wing Building – 14 Ultimo Road, Ultimo
UTS Business School

Inspired by the idea of a treehouse, the building was designed by architect Frank Gehry as “a growing learning organism with many branches of thought, some robust and some ephemeral and delicate”.

Housing the UTS Business School, this building is popular for conferencing as it has classrooms and large lecture theatres in close proximity to each other and also has a light and airy space for catering. Also located in this building are two oval teaching spaces which encourage participant engagement and collaboration.

The Dr Chau Chak Wing Building has been awarded a 5 Star Green Star Design rating awarded by the Green Building Council of Australia due to a number of sustainable design features including natural daylight, energy efficient building services and rainwater capture.

UTS Building 10

Faculty of Arts and Social Sciences & Faculty of Health
235 Jones Street, Broadway

Building 10 used to be the old Fairfax headquarters and has won a Sulman design award. This building boasts a large open foyer that takes advantage of the daylight and provides a bright open space.

Located across the road from Building 2 and 7, Building 10 has a variety of spaces throughout the building such as collaborative classrooms, pod classrooms, computer labs and nursing labs.

UTS Short Courses Venue

UTS Building 10, Level 7
235 Jones Street, Broadway

The Short Courses Venue is a distinctive technology rich facility for hosting a diverse range of short courses for professional and executive education. This learning space supports an array of interactive and collaborative activities incorporating multi-screen, networked audio-visual systems. There are four individual spaces for 24 -30 people, which can be operated individually, as a group, or can be opened up to facilitate larger groups from 48 - 54 people.

The central network lounge acts as a catering and breakout space. The vibrant and sophisticated amenities, the quality of design and the integrated technology makes this facility ideal for hosting short courses and workshops for corporate, industry and community organisations.

Venue	Capacity	Room Style
Seminar Room 1 CB10.07.101	24	Collaborative

UTS Building 11

Faculty of Engineering and IT Building – 81 Broadway, Broadway

As home to the Faculty of Engineering and IT (FEIT) Building 11 is a state-of-the-art facility encased with semi-transparent 'binary screens' which are perforated with binary code. The building's design is striking inside and out, with innovative teaching and learning spaces including two large collaborative lecture theatres located next to each other and a variety of collaborative classrooms and pod classrooms in different sizes.

The building was awarded a 5-star Green Star Design from the Green Building Council of Australia with sustainable features including a roof-top wind turbine, solar panels and solar concentrating troughs.

Alumni Green

Alumni Green is the courtyard area that is centrally located between Building 1, 2, 7 and 4. The purpose of Alumni Green is to provide a gathering space for staff and students where they can relax and enjoy the sun and some fresh air. It is broken into 3 distinct sections known as...

The Green

A large raised turf platform opposite Building 2. To keep the grass growing nothing is to be installed, erected or placed on the grass area. The landscaped edges of the green are informal seating areas.

The Heart

A large paved open space located at the rear of Building 1 has been modelled after town squares like Federation Square in Melbourne or the Pompidou Centre's forecourt in Paris. It is the ceremonial gathering space for students and visitors.

The Garden

A mini oasis of trees and plants shading a series of connected student "pods". Each pod is programmed with a different activity, like power outlets for laptops and even ping-pong tables.
